✓ Pitch

– **Short edit:**

Build an amazing trip planner web application.

– **Long edit:**

Help people to organize a vacation, with a fully-functionnal and documented web application which gathers intel, and suggests events and services (chill, eat, drink, sleep, have fun,...). To become a greater web developer, you have to use **T**est **D**riven **D**evelopment in order to deliver a responsive and accesible application.
